What is Affiliate Marketing?

Affiliate Marketing is where you promote other people's products and earn a commission when it is bought. Normally the product owner will provide you with a link that will identify you as the referrer. This link is called your Affiliate Link and contains your unique ID. When people click on this link they are taken to the sales page for the product or service. When they buy the product you get paid a commission. If there is a guarantee given on the sale of the product of say 30 days then you will have to wait at least that long before your commission will be paid.

Most Affiliate Programs will pay their members once a month or some like ClickBank will pay twice a month. The commission you get paid will also vary and for information products it can be between 50% or even up to 75%. There is one exception where you get paid 95% and that is when you are a member of [Turbo Membership](#) of John Delavera. The commission on high value products like Personal Coaching and physical products are normally much lower.

It is very easy to earn good money with affiliate programs because you do not have to spend months creating your own products. There is also no need for customer service because it is taken care of by the owner. All you have to do is to promote the product or service and then wait for the payment of your commission.

The Down Side of Affiliate Marketing.

There are a few drawbacks when promoting other people's products. If the product is very popular then you will have to compete with several other affiliates trying to sell the product. Competition can be fierce and you have to do something extra to get the sale. You will not be very successful if you just send people directly to the sales page.

There are however many things that you can do to get into a better position to beat your competition. First of all you can build a list of interested prospects by offering a special report on the subject. (It can be something similar to what you are reading now). You can then follow-up with your list with more information about the product and its use. You can even write a review about the product. Here it is very important that you have used the product yourself to be able to give a true testimonial that will drive your sales.

You can also compare different products to each other and left the choice to your new client. When you do get the sale you get paid only part of the full price while the product owner receive the balance without having spent a cent on the promotion of his product. You did all the hard work.

How Can You Turn the Tables with Affiliate Workshop 2?

This is not only for product owners but eventually you would like to have your own products to sell. That will be the only way to really make a name for yourself or brand your business. In the meantime this system will help you to get the most out of your affiliate marketing.

Almost all Internet Marketers will agree that the best way to market any product or service online is to first build a list. This is a list of interested prospects to which you can then send follow-up emails with more information about the products. This will allow you to build a relationship of trust with your subscribers and give you more time to convince them of all the benefits they will receive when using the products. [AllNetworkers Team or ANT](#) is such a program that will enable you to build your list quickly and they offer excellent training for the new marketer.

As a single person you only have 24 hours each day to run your business and you will never see real growth of your business if you do everything yourself. Some say that Internet Marketing is a team sport. Even if you make use of all the available tools like auto-responders to automate your business it will still be an uphill battle.

The one thing that will really give you a big push forward is when you can get other people to help you promote your products. This will work even when you are just promoting other people's products, especially when they have multi-level pay plans. The way to make this work for you is to have your own affiliate program where you choose the products or services to promote.

There are several programs available with affiliate programs where you can even build your own team but all of them will force you to promote their products and services. With [CapturePros Affiliate Workshop 2](#) we give you the choice of which products and services are included in the promotion. Yes, we make recommendations of the services that we use ourselves, but if you already use other services then those can be included in your affiliate program. This is a major improvement and I am certain that you will agree with me.

Let me give you an example:

Say you are using [NPN](#) as your auto-responder and tracking service. Now you subscribe to this great affiliate program that allow you to add your own products but they only use and promote [AWeber](#) as their auto-responder service. Does that mean you have to subscribe to two similar services just to make use of their program? Not any longer. With **CPAW2** we will replace the **AWeber** link with your **NPN** affiliate link and even change the email series to reflect your choice. The same can be done if you use [GetResponse](#) or any other auto-responder service.

We will also do the same with your hosting service like [HostGator](#), [GDI](#) or [PROFITmatic](#). On top of it all you can add your own products and even choose your own signature lines to promote it with. You can even add unlimited auto-responders to your system and everything gets tracked from the source to the sale. You don't have to worry about a single thing - everything is done for you. All you have to do is send visitors to your affiliate link. We even give you the resources where you can find loads of free targeted leads.

What Do You Get when You become part of Affiliate Workshop 2?

This is where we break the barriers that have kept you from having success with your online business.

- No knowledge of HTML or FTP needed.
- You don't need your own domain name.
- No need to look for hosting - it is included.
- You don't need your own products.
- No forced subscription to any program.

You receive a Customized Capture Page linked to a series of emails with your affiliate links promoting your choice of products.

Read the previous sentence again because you will not find a similar offer anywhere.

You receive the contact details of each subscriber to your link and you will also receive a download list of all your subscribers each week. If you want to run your own affiliate program we will give you a copy of our system and show you how you can adjust it to suit your needs. We make use of the [PROFITmatic](#) site builder to host our service. It is very easy to add any number of affiliates and to customize their web pages and auto-responders. We also use Google Analytics to track all pages and you will receive regular reports of your statistics. It will show you which ad campaigns are working best for you.

The power of [Affiliate Workshop 2](#) lies in the fact that you can build your team of affiliates effortlessly and thus you can concentrate your efforts in developing your own products. Or if you want to just stay with affiliate marketing, it will give you more free time to spend with your friends or family. Your affiliate team will handle most of your promotion.

The reason why they will gladly promote your products is because they can simultaneously promote their own affiliate links as well. By promoting the tools of our trade they will be able to make easy money and so will you as well. We all know the saying that it was the people who sold the shovels to

the gold diggers who made the most money. **[Affiliate Workshop 2](#)** is more like an excavator and you don't even have to sell it - just give it to them.

CapturePros Affiliate Workshop 2 comes in three levels. The first level is free to join but has a few limitations. Free Members have no choice of which programs are promoted and they cannot contact their subscribers. On the other hand our paid members enjoy many special benefits.

Gold Members can supply an exit link that will be rotated between all members which they can change once a month. **Gold** Members, that also become members of **PROFITmatic**, will receive a custom made affiliate program of their own. They will also receive a subscriber list each week that they can upload to their **NPN** auto-responder. They can then follow-up with their own email series to build a relationship with their subscribers while building their own responsive list of prospects. **Gold** Members have their own download page where they have access to excellent software, scripts, ebooks and special reports.

Platinum Membership is our top level membership at **CPAW2** and gives you top class service. **Platinum** Members enjoy the same benefits as **Gold** Members do but they have even more. They can also run permanent login ads and exit ads which they can change at will. Their download area have even more valuable content plus they can download this special report and replace all the links with their own affiliate links.

Still uncertain how CapturePros Affiliate Workshop 2 can benefit you?

Affiliate Workshop 2 is a no cost marketing system with a built-in affiliate program. It enable those, that do not have the technical skill yet, to share in the wealth of online marketing.

How does the System Function?

1. **Affiliate Workshop2** (or **CPAW2**) supplies each participant with their own affiliate program including our proven capture page.
2. Each new entrant is introduced to a generic free list-builder and training site. Here the new Internet Marketers get shown how they can get free targeted traffic to their **CPAW2** affiliate link. Now they only have to promote a single link that does all the work of "selling" automatically for them. You can plug in two of your own products or services here. Even as a free member you stand a chance to earn commission when your subscribers make use of the one-time-offer (or OTO) to Upgrade. Paid members receive more advanced training. Those who cannot afford to take the OTO can always upgrade at a later stage. This upgrade will then cost a bit more but you will be able to afford it through the use of **Affiliate Workshop 2**.
3. Thirdly the new subscribers are introduced to another free traffic generating system. This program will help you to get more free traffic to your **CPAW2** link. The unique feature of this program is that your visitor numbers will steadily increase the longer you use it. When you refer new subscribers you will gain even more traffic just from their participation. As a member of **CPAW2**, you will have new subscribers to this program daily, without any effort from your side. You will again earn commission when your referrals decide to upgrade. This will be true even if you stay a free member.
4. The fourth program that is promoted through **CPAW2** will be your bread and butter investment. We call it your funded proposal because this will build you a buyers list. It is cheap enough for everybody to join and will supply you with enough cash to pay for all your marketing

expenses. If you follow through with my marketing system there will even be enough left to take your family on that long awaited leisurely relaxing luxury holiday.

5. The second last program promoted through **CPAW2** is the main offer of your sponsor. The main reason that you might join **CPAW2** is to obtain your own affiliate program to promote your own product, MLM business or service. This will enable you to build your own team of affiliates that will help promote your offer.

Just like your sponsor's offer will be shown to you, your offer will be shown to your subscribers. When they take up your offer they will become your affiliates. Even if they replace your offer with their own offer then they will still subscribe to some of the other programs. Even if they skip that as well, your affiliate links for those programs will still be promoted when they promote their **CPAW2** links. Your links will only be replaced with their affiliate links when they subscribe to those programs or if they had been a member of some of those programs already before joining **CPAW2**.

6. My last recommendation will be responsible for your back-end sales. This is also a monthly service like the one in no.4 above and will provide you with a steadily rising monthly income. This is in exchange for work that you will do only once. This option is obviously more expensive but their pay-plan will enable you to build your income much faster. You can always use **CPAW2** without subscribing to this program at first. Your sponsor will earn the commission if any of your subscribers join it. When you are earning enough to make this investment you just update your link in **CPAW2** and start sharing in the revenue.

To Conclude:

Each of the programs in **CPAW2** was specifically chosen for a certain purpose. Each program was tried and tested by me personally and I still use all of them on a daily basis to run my online business.

These programs were chosen to form part of a whole strategy. **Affiliate Workshop 2** is based on a proven business plan to help you build your list of eager buyers as well as a team of affiliates to help with your online promotion.

To build a solid online business it is very important that you develop some necessary skills as well. By joining **CPAW2** you are given this packet of marketing tools woven into a marketing system that works. It will enable you to earn while you discover the tricks of the trade.

The technical side is taken care of by me and my team while you are given the guidance to concentrate on your promotion. You will never have to wonder what is next. Just follow the indicated path through the jungle of hype and blatant lies.

You have to make me just one promise:

I solemnly pledge that I will not be distracted by all the new online launches and silver bullets but I will focus on **CapturePros** Affiliate Workshop 2 and together we will triumph!

I agree to this pledge and thus click the link below. I will type my name as prove that I will keep my promise.
